

AIRWELLINO

The **AIRWELLINO** is used to purify the air energetically. In addition, it harmonizes geopathic influences (Earth rays, Water veins etc.), low electromagnetic influences and has other positive effects on our well-being.

For high electromagnetic pollution or directional beam loads, we recommend the additional use of a **SANA LEA OMNIGOLD** or **OCTARINO** and for all wireless devices the **FOSTAC OMNI CHIP** or the **ELECTRIC plate (Mini, A6 or A5)**. The negative effects of the internal power network can be harmonized with **ELECTRIC plates (A6, A5 or A4)**.

The glass column can be alternately illuminated in different colors and optionally stopped using a control unit. The **RHO RODS** with a faceted sphere at the top create an additional effect in their effective field of approx. 65 m diameter (approximate value*):

- energetic harmonization of low-dose radioactive pollution
- energetic strengthening of the immune system
- and further more

* This guide value depends on the overall radiation influences

Deliveries within Switzerland, as well as foreign countries, will be charged according to expenditure.

TECHNICAL DETAILS

Material: Glass column on slate socket
 Size: 95 x 40 x 30 cm (H x W x D)
 Weight: approx. 39 kg net
